

Environmental Policy

Page 1 of 2

Cotswold Health Products Ltd is committed to reducing any harmful impact on the environment that results from our global business activities. The company recognises that the culture of all businesses should be one that promotes consideration to the environmental impact and outcomes of their activities and as such we encourage our suppliers to follow an equivalent environmental policy.

Cotswold Health will, within the constraints of the resources available to them, improve environmental awareness and considerations as follows:

- Conserve energy, water, wood, paper and other resources especially those that are non renewable
- Encourage recycling of materials where applicable
- Reduce pollution, emissions and waste
- Comply and if possible exceed the requirements of environmental legislation and approved codes of practice
- Assess the environmental impact of all historic, current and likely future operations
- Continually seek to improve environmental performance
- Raise awareness, encourage participation and train employees in environmental matters

Environmental Policy

Page 2 of 2

- Expect similar environmental standards from all suppliers and contractors
- Assist customers, where applicable, to use products and services in an environmentally sensitive way
- Liaise with the local community and participate in discussions on environmental issues

This policy will be constantly reviewed and formally assessed as part of the annual quality management review
